

# ABDULLAH AL-HADI

SOFTWARE DEVELOPER WITH FLUTTER

2000/02/02

## PROFILE

Highly skilled flutter developer, I have two years of experience in developing cross-platform mobile applications, proficient in the Dart programming language and have experience in building user interfaces, task execution, application programming interfaces (APIs), and application effectiveness. I have strong problem-solving skills, understand the basic principles of mobile app development, and are committed to delivering high-quality code and contract user experiences.
